Currently learning: Typescript

Last Project

ConnectINK - Nov 2023 - Jan 2024

This groundbreaking platform revolutionizes how tattoo artists and enthusiasts connect.

It offers a unique space for artists to display their work, manage schedules, and connect with clients, who in turn can easily browse, appreciate, and book tattoo sessions.

I utilized React.js and Next.js to develop an intuitive and engaging user interface, ensuring a seamless and enjoyable user experience.

My focus was on crafting a visually appealing design using Tailwind CSS, making the platform not only attractive but also responsive and accessible across various devices.

A key part of my responsibilities included integrating Redux Toolkit for efficient state management, which significantly enhanced the app's performance.

My contribution to ConnectInk was to create a functional, user-friendly, and aesthetically pleasing platform, fostering a meaningful and efficient connection between tattoo artists and their clients.

Working Experiences

Full Stack Teaching Assistant Oct. 2023 - Jan 2024

Academic Experience. Henry Bootcamp

Coordinated a group of students to facilitate their integration into the study team.

Assisted in solving exercises and promoted group collaboration (Pair Programming).

Proposed ideas for improving Bootcamp processes.

Pokemon Api - Oct 2023 - Nov 2023

ApiPokemon reimagines the Pokémon API with a user-friendly interface, enabling users to create and learn about various Pokémon. As a full-stack developer, I employed React and Vite for a dynamic front-end, enhanced by Redux for state management and styled with pure CSS for a sleek look.

On the back end, I utilized Node.js, Sequelize, PostgreSQL, and Express, ensuring robust functionality and efficient data management. My role was integral in seamlessly integrating the front and back ends, providing a smooth, informative, and engaging user experience, making ApiPokemon an intuitive and enjoyable platform for Pokémon enthusiasts.

TELUS International

AirBnB Customer Service Specialist

Duration: Aug 2022 - Present (1 yr 6 mos)

Location:Cork, Ireland

Key Skills: Problem Solving, Agile Development
